State Management: Redux Toolkit, React Context API

Backend Development: Python, Django, REST APIs, RESTful Web Services

Database Technologies: SQL, PostgreSQL, Database Design, Query Optimization

Tools: VS Code, Git, GitHub, NPM, Chrome DevTools, Vercel

Core Skills: Responsive Web Design, UI Development, Component-Based Architecture, API Integration, Authentication, RBAC, Agile Development

PROFESSIONAL EXPERIENCE

Web Development Intern | Bridgeon Skillvercity, Calicut

2025

- Performed frontend development using HTML5, CSS3, JavaScript, and React.js to build 15+ responsive user interfaces with 95%+ cross-browser compatibility.
- Developed 20+ reusable React components using component-based architecture, reducing code redundancy by 25%.
- Implemented Redux Toolkit and React Context API for global state management in 3 web applications.
- Integrated and consumed 10+ REST APIs with optimized error handling, improving application performance by 30%.
- Collaborated with a 5-member development team using Git and GitHub, contributing 50+ commits.

PROJECTS

Student Management Platform (EduCom) Full-Stack Web Application

Live: student-management-django-omega.vercel.app | GitHub: github.com/dennisjoseph2025/student_management_django

- Built a full-stack web application using Django and PostgreSQL supporting 100+ concurrent users.
- Implemented secure user authentication and role-based access control for students and principals.
- Designed responsive dashboards and UI components that reduced administrative workload by 40%.
- Created a normalized database schema with 5+ tables and deployed the application on Vercel with 99.5% uptime.

E-Commerce Platform (DENJO-C) Frontend Web Application

Live: react-e-commerce-website-omega.vercel.app | GitHub: github.com/dennisjoseph2025/React-ECommerce-Website

- Developed a React-based e-commerce frontend using Tailwind CSS supporting 50+ products.
- Implemented Redux Toolkit for shopping cart and global state management, reducing state-related bugs by 90%.
- Integrated REST APIs to enable real-time product search and filtering.

Personal Portfolio Website Frontend Web Application

Live: dennis-r.vercel.app | GitHub: github.com/dennisjoseph2025/React_Portfolio

- Designed and developed a responsive portfolio website using React and Tailwind CSS.
- Achieved 95+ Google Lighthouse score through performance optimization and lazy loading.

EDUCATION

Bachelor of Commerce in Computer Applications (B.Com CA)

BVM Holy Cross College, MG University

2022 – 2025
